Table A-1 Luistari Grave Value Table

Generated using the information from Lehtosalo-Hilander's table containing the information of the Viking Age graves and their furnishings from the cemetery at Luistari, Finland. Each category of artefact was assigned a wealth value relative to the other items of the assemblage.

Table A-2 after Skre 2007: Comprehensive Catalogue of Kaupang's Graves and Grave Goods. This table contains the information about the graves and their furnishings from the environs of Kaupang, Norway drawn from the excavations and publications which preceded the most recent excavations.

Table A-3 Luistari Animal Graves

This table contains information identical to Table A-1 selected exclusively for graves which contained evidence for animal remains in order to examine the relationship between animal remains and the associated materials.
